

CONTACT INFORMATION	UC Berkeley Department of Mathematics 970 Evans Hall, Office 707 Berkeley, CA 94720-3840	Homepage: https://noaholander.github.io/ ✉ E-mail: nolander@berkeley.edu
EMPLOYMENT	UC Berkeley	September 2024–September 2027
	• NSF Postdoctoral Researcher • Mentor: Martin Olsson	
	University of Amsterdam	September 2022–September 2024
	• Postdoctoral researcher • Supervisor: Lenny Taelman	
	Hausdorff Research Institute for Mathematics	September 2023–December 2023
	• Visiting fellow • Participant in the Junior Trimester Program on Algebraic geometry: derived categories, Hodge theory, and Chow groups	
EDUCATION	Columbia University	September 2017–May 2022
	• PhD in Mathematics • Advisor: Aise Johan de Jong	
	UCLA	September 2013–June 2017
	• BS and MA in Mathematics	
PAPERS	1. <i>When is Frobenius epic?</i> (2026, joint with Javier Carvajal-Rojas, Rankeya Datta, and Axel Stäbler). 2. <i>Derived categories of quadric bundles and moduli stacks of spinor sheaves</i> (2026, joint with Raymond Cheng). 3. <i>On automorphisms of p-torsion $\mathbf{G}_m$-gerbes</i> (2026). 4. <i>A characteristic p analog of formal lifting properties</i>. International Mathematics Research Notices (2026, joint with Rankeya Datta). 5. <i>Gerbes for trigonalizable group schemes</i> (2025, joint with Martin Olsson). 6. <i>A derived category analogue of the Nakai–Moishezon criterion</i> (2025, joint with Daigo Ito). 7. <i>Approximation by perfect complexes detects Rouquier dimension</i>. Moscow Math Journal (2025, joint with Pat Lank). 8. <i>On weakly étale morphisms</i>. Journal of Pure and Applied Algebra (2023, with Aise Johan de Jong). 9. <i>Ample line bundles and generation time</i>. Journal für die reine und angewandte Mathematik (2023). 10. <i>The Diagonal Dimension of Curves</i>. International Mathematics Research Notices (2023). 11. <i>Orlov’s Theorem in the Smooth Proper Case</i>. Journal of Algebra (2024).	
OTHER WRITING	1. <i>Resolutions, bounds, and dimensions for derived categories of varieties</i> (PhD Thesis, 2022). 2. <i>Theorem of the Base</i> (with Raymond Cheng, Lena Ji, and Matt Larson). Chapter of the book Stacks Project Expository Collection, London Mathematical Society Lecture Note Series (2022). 3. <i>Detecting Boundedness</i>. A section of the Stacks Project. Modified version available at https://stacks.math.columbia.edu/tag/0GEI (2021).	

INVITED TALKS	• University of Georgia Algebraic Geometry Seminar	September 2026
	• Columbia University Algebraic Geometry Seminar	April 2026
	• Banff International Research Station Workshop: The Geometry of Algebraic Stacks	January 2026
	• University of Missouri Algebra Seminar	November 2025
	• UC Berkeley Seminar on Commutative Algebra and Algebraic Geometry	October 2025
	• UC Davis Algebraic Geometry and Number Theory Seminar	April 2025
	• UC Santa Cruz Algebra and Number Theory Seminar	December 2024
	• UC Berkeley Seminar on Commutative Algebra and Algebraic Geometry	October 2024
	• University of Bonn Seminar Algebraic Geometry	September 2023
	• Junior Belgian–Dutch Algebraic Geometry Seminar	June 2023
	• Korteweg-de Vries General Mathematics Colloquium	June 2023
	• University of Angers Topology and Algebraic Geometry Seminar	February 2023
	• Dutch intercitiy geometry seminar on condensed mathematics	October 2022
	• University of Amsterdam Algebraic Geometry Seminar	September 2022
	• University of Michigan Algebraic Geometry Seminar	January 2022
	• Northwestern Algebraic Geometry Seminar	January 2022
	• Stanford Algebraic Geometry Seminar	December 2021
	• American Graduate Student Algebraic Geometry Seminar	October 2020
ADVISING	At the University of Amsterdam:	
	• Advised the bachelor thesis of Alexander Thünnessen on Milnor K-theory and quadratic reciprocity	Spring 2024
	• Advised the bachelor thesis of Michiel Plompwinkler on the degree–genus formula for plane curves.	Spring 2023
TEACHING	At UC Berkeley:	
	• Math H113 (Honors Introduction to Abstract Algebra)	Fall 2026
	• Math 256B (Graduate Algebraic Geometry)	Spring 2026
	• Math 256A (Grauduate Algebraic Geometry)	Fall 2025
	For Mastermath (the joint masters program of the Dutch mathematics departments):	
	• Algebraic Geometry 2	Spring 2024
	At Amsterdam University College:	
	• Calculus 1	Fall 2022
	At Columbia University:	
	• Calculus 1	Summer 2020
	At Columbia University, as a TA:	
	• Commutative Algebra	Fall 2021
	• Linear Algebra	Spring 2021
	• Linear Algebra	Fall 2020
	• Intro to Modern Algebra 1	Spring 2020

- Calculus 2 Fall 2019
- Calculus 2 Summer 2019
- Intro to Modern Algebra 2 Spring 2019
- Linear Algebra Fall 2018

At the LA Math Circle, as a Lead Instructor:

- High School 1 Fall 2016–Spring 2017
- Junior Group Summer 2016
- Advanced Group Fall 2015–Spring 2016

At the LA Math Circle, as an Assistant Instructor

- Intermediate 1 Group Fall 2014–Spring 2015
